Service Description – {{Date}} **Property Address:** {{Street Address}} {{City}} {{State}} On {{Date}}, **Space Coast Emergency Tarping** responded to an urgent request for roof mitigation services at the above property due to active interior water intrusion. Upon arrival, our two-man crew confirmed multiple missing and affected shingles leading to major interior water damage. We took immediate action to prevent further damage by installing **Two poly tarps** – one measuring 20' x 25' and the other 6' x 8' – which were securely anchored using a combination of **sandbags and wooden straps** to provide temporary protection against further weather exposure. A total of **548 square feet** of roofing was covered. The property is located approximately **1.5 hours from our dispatch office in Palm Bay, Florida**, and therefore a **trip charge** has been included. The **entire scope of work** – including inspection, setup, tarp deployment, and site cleanup – **was completed the same day** to mitigate the water intrusion and stabilize the structure until permanent roof repair or insurance adjustment can occur.

⚠ **Important Notice:** This tarp installation is a **temporary emergency measure**. While it is designed to resist moderate weather conditions, it is not a permanent solution. Wind uplift or future severe weather events may compromise the tarp's integrity. **In the event of additional storms or exposure** that requires tarp reset or replacement, **a new service charge will apply**. **A signed Work Authorization Agreement, Direction of Pay, and before-and-after photos have been submitted along with this invoice for your review.** If any of the aforementioned items are missing or you would like to request copies, please email us at info@spacecoastemergencytarping.com and include the claim number in the subject line. Thank you !
